

Celebrations around the World

Dear student:

This is your English Literacy project. Read the instructions carefully and do your best. There are 195 recognized countries in the world today. All countries have some common celebrations but some other countries have unique special days. For this project you will need to research about holidays and celebrations all over the world. You have to find 3 different celebrations from 3 different countries.

Answer the following questions about the celebration you chose:

- 1- *In which country does the celebration take place?*
- 2- *When does the celebration take place?*
- 3- *What is the story of the celebration?*
- 4- *Name some special things the people do to celebrate this special day.*

Bring all the information you researched to the classroom the day of the exam. You will write a paragraph for each of the celebrations using the information about the countries you have.
